

Los Angeles Metro

The strategic meeting place for U.S. and Asian markets

Equinix helps companies accelerate business performance by connecting them to their customers and partners inside the world's most-networked data centers.

Our Los Angeles data centers are business hubs for 330 companies. Customers can choose from a broad range of network services providers, and interconnect directly to customers and partners in their digital supply chain.

The Los Angeles colocation facilities enable customers to be part of a rich industry ecosystem. Located in downtown Los Angeles, El Segundo or Torrance, these data centers service managed hosting services, financial services, social media platforms and online retail services. They are also a strategic meeting place for U.S. and Asian markets.

Los Angeles metro facilities

The Equinix Los Angeles metro International Business Exchange™ (IBX®) data centers comprise 305,000+ square feet (28,325+ square meters) of colocation space. Customers have access to the second-largest peering exchange in Los Angeles, and access to key metro areas such as San Francisco and Dallas via one of the carriers in the facilities.
